

STIC

BISON STIC IS EXTRA STRONG, DURABLE AND CLEAN TO USE. THE UNIQUE SCREW CAP PREVENTS DEHYDRATION.

TECHNICAL SPECIFICATIONS

Appearance: White to slightly yellow wax-like mass

Chemical base: Modified Starch

Colour: White

Consistency: Solid, but easy to apply

Solvent: Water

pH-value: approx. 10,5

STORAGE CONDITIONS

At least 36 months after production. Limited shelf life after opening. Store packaging in a dry, cool and dark location. Shelf life of 36 months. Limited shelf life after opening.

PHYSIOLOGICAL PROPERTIES

Bison stic is physiologically safe.

PRODUCT DESCRIPTION

Bison stick is extra strong, durable and clean to use. The unique screw cap prevents dehydration.

FIELD OF APPLICATION

Suitable for bonding paper, thermal paper, cardboard, labels and Styrofoam®. For home, school and office use. The adhesive can be applied easily and uniformly, after which the object is still correctable for the most accurate result. Easy to wash with cold water. Ideal for use at home, office, school and Kindergarten

PROPERTIES

- Very high adhesive strength
- Washable in cold water
- Easy to spread
- Unique screw cap against drying out

APPLICATION

Directions for use:

Bison stic is applied with light pressure onto the materials to be glued. The parts are put together immediately after applying the glue.

Stains/residue: Adhesive stains can be washed with warm water.

CURE TIMES*

Drying/Curing time: approx. 45 seconds

Final bonding strength after: approx. 45 seconds

* Curing time may vary depending on a.o. surface, product quantity used, humidity level and ambient temperature.

Our advice is based on extensive research and practical experience. However, in view of the large variety of materials and the conditions under which our products are applied, we assume no responsibility for the results obtained and/or any damage caused by the use of the product. Nevertheless, our Service Department is always at your disposal for any advice needed.
